PROFESSIONAL EXPERIENCE

Software Engineer

04/2025 – Present | Seattle, Washington

Visa Inc.

Risk and Identity Solutions (Visa Device Intelligence)

Java, Python, Typescript, React.js Electron.js, AI Workflows

- Redesigned flows to meet client latency and quality expectations, cutting flow A latency by ~35%, and flow B by ~50% while improving platform accuracy.
- Built dashboards and analytics that identified performance bottlenecks and client usage patterns, revealing areas of potential growth allowing VDI to confidently scale from ~800 transactions to ~27 million per day.
- Orchestrated agentic workflows with human-in-the-loop for all final decisions and reviews resulting in an accelerated delivery pace of ~170% expectations.
- Mentored interns developing agentic triaging of production issues aimed at improving issue resolution velocity.
- Built a centralized platform for device recognition and intelligence within Visa, enabling improved fraud detection, and improved passkey and authentication features serving as the backbone of device ID.

Volunteer Full Stack Engineer

04/2024 – 04/2025 | Remote, USA

CodePDX [🔗](#)

React.js, Material UI, Javascript, git

Main Site

- Designed, and developed WCAG and a11y compliant themes using MUI, and React, greatly enhancing user experience and user journey.
- Created and edited dozens of assets for the webpage dark-mode themes with Photoshop and Figma.

PASS Project

- Implemented and tested controlled forms, pre-validating user data for decentralized data stores.
- Built features allowing the sharing and editing of contacts and user profiles.

Full Stack Engineer

11/2023 – 03/2024 | Remote, USA

Freelance Consultant

- Developed and maintained - hands-on and fullstack - features in Javascript, and Typescript across all platforms and devices.
- Provided clients with publishing options, bundled, deployed and maintained their applications.

OPEN SOURCE CONTRIBUTIONS

The Odin Project [🔗](#)

- Curriculum: Overhauled the CSS Foundations sections, reorganizing and enhancing lessons.
- Taught learners fundamental concepts, providing code and design reviews.

PROJECTS

Gradient Fitness [🔗](#)

React, Typescript, TailwindCSS, PostgreSQL, Chart.js, Express.js

- Collaborated with fitness professionals to determine and design useful analytics for strength training.
- Created robust charts using public datasets and medical research, allowing professionals and hobbyists to gain a deeper and more accurate understanding of their physical strength.
- Utilized PostgreSQL with Prisma to quickly analyze and aggregate large datasets for statistical analysis.

EDUCATION

Purdue University

08/2016 – 05/2020 | West Lafayette, USA

B.S. Chemistry (conc. Biochemistry)

SKILLS

Languages: Typescript, Javascript, Java, Python, Golang, HTML, CSS | **Frameworks:** React, Next, Express, Node, Springboot, Electron | **Tools:** PostgreSQL, MongoDB, Kafka, Redis, Prisma, Docker, Socket.io, Jest, Vitest, Git, Postman, Liquibase, AI, Claude Code, Agentic Workflows | **Technology:** Photoshop, Lightroom, Blender, Premiere Pro
